

My Kubota Dealer

We have met Jean-Philippe CLENET, CEO of CLENET MANUTENTION company, located in Saint-Jean-de-Linières in Maine-et-Loire (France). He is the grandchild of the founder.

The company was created in 1956 by Jean CLENET and its activity was, at this period, to distribute handling machines and agricultural tractors.

CLENET MANUTENTION started to be a KUBOTA dealer for construction machinery in 1988, that is to say almost 30 years ago.

During this time laps, almost 600 Kubota machines has been sold on a territory which keeps on growing and which, nowadays, covers the territories of Maine-et-Loire, Deux-Sèvres and Loire-Atlantique.

The 4 outlets, located in Angers, Cholet, Parthenay and Nantes, have a turnover of 21 millions of Euros and employ 55 persons.

“Our mission is to make life easier for our customers by providing solutions to all their needs of handling.” says Jean-Philippe CLENET. “The values we are committed in are to offer Quality services, Simplicity and Proximity.”

“Regarding the distribution of construction machinery, our vision of the future is based on an ultra proximity service with solutions such as contracts of maintenance, financing which regulates the total cost of ownership (TCO) but also a full-service offer, an after sales service of high quality, among others” adds Jean-Philippe CLENET. “To do so, we must be in daily contact with our customers. We invest also in qualified staff training because we think that it is absolutely necessary to support people who trust us.”

Jean-Philippe CLENET and his team.
