

A wheel loader RT210 for Lagardère Paris Racing

Lagardère Paris Racing, located Chemin de la Croix Catelan in Bois de Boulogne (Paris), has chosen a KUBOTA RT210 wheel loader for its site maintenance.

The delivery was at the end of Novembre. We presents Mr Guillaume THEULIER, Technical Director at Lagardère Paris Racing, Mr Sylvain PALARIC, Sales Manager at Bouchard Manutention and Mr Bernard DEWAELE, Marketing Products Director at Kubota Europe.

According to the club request, the machine was configured with turf tires to not damage the grass areas, a foldable canopy to park it in a covered parking, an additional electric auxiliary line to pilot the 4x1 bucket. It is equipped with mudguard, beacon light, road lights kit, 4x1 bucket of 130 cm and a pallet fork.

The RT210, especially easy to use on narrow lanes.

The staff members, who are going to use it, have appreciated the easy driving and the turning radius which will allow them to circulate through the very narrow lanes. This wheel loader shall be used to move pallets, to maintenance the tennis courts and to handle sand and other materials.
